

2022 Annual Report

Message from the Chief

When I was offered the position of Fire Chief for the City of Vermilion, it fulfilled a dream of mine which began at a very young age. Like many little boys, I was all about two things: football and firefighters. At some point in my teen years, I realized my professional football career was probably not going to happen, so Plan B was put into effect.

Throughout my life, I've been fortunate enough to have wonderful role models to steer me through life. Born and raised in Wellington, my parents were the perfect combination of hard-working, nurturing and tough. My mother, Carol, read to my brother and sister and I and routinely found activities for us to do as a family. My father John built a small business

and supported our family. A mechanic by trade, he and his business partner ran a Gravely tractor sales and service business. He could fix anything with an engine; despite losing portions of four fingers in a farming accident. My parents did everything they could to raise three good human beings and without them, I wouldn't be the person I am today.

Back to Plan B....my high school years directed me to college, specifically to become an athletic trainer. After receiving my degree, I briefly coached football in North Ridgeville, eventually getting hired to work at Kolczun & Kolczun Sports Medicine....the job I set my sights on as a sophomore in high school. After accepting the job, I told my grandfather about what an athletic trainer does. His response, "They pay you for that?"

Several years following that, I would be hired to start the sports medicine program at Fisher-Titus Hospital in Norwalk. The week prior to starting in Norwalk, I became a part-time firefighter in Wellington. The time involved as an athletic trainer, covering eight schools, by myself would eventually lead me to a full-time career with the Wellington Fire District in 2001. The move was best for my family and I at the time, as my kids, Lauren and Jarrod, were beginning to play sports, I was missing too much of that.

I rose through the ranks, eventually retiring from Wellington on June 12, 2022, to begin this new, exciting chapter in my life in Vermilion. A chapter which began as a four-year-old. Sharing the other half of our duplex was my parents' friends, the Moore's. Roger, at the time, was a volunteer firefighter and when he would receive a call, the siren downtown would start wailing and off he went. My brother and I would don our rubber boots and plastic fire helmets and run outside to see him off. That's where it started for me. Even though my career path took a detour for a few years, I eventually found my way back to the fire service.

I can't begin to express my gratitude for the hospitality shown to me by city officials, residents and most importantly, the men and women of the Vermilion Fire Department. My partner Jolene and I, along with my grandson Cole and her daughters, have already spent many days exploring the city through shopping, eating, and kayaking; and look forward to our first full summer here.

Mission Statement:

Protecting the citizens of our response area; the Vermilion Fire Department is a combination department, staffed by professional, paid per call firefighters who are committed to providing courteous and cost-effective fire protection, fire prevention, as well as a wide array of emergency services.

Section 1: Personnel

Vermilion Fire Department Chain of Command

Vermilion Fire Department Personnel / Year Hired

Fire Chief	Bill Brown	2022
Deputy Chief	Chris Stempowski, Sr.	1990
Assistant Chief	Dave Coen	1976
Assistant Chief	Doug Keith	1990
Captain	Robert MacLean, Sr.	1983
Captain	Kirk Horton	1988
Lieutenant	Brian Dunegan	2007
Lieutenant	Jerry McKinney	1996
Lieutenant	Chris Stempowski, Jr.	2006
Lieutenant	Derek Kuba	2010
Lieutenant	Doug O'Donnell	2017
Lieutenant	Scott Innes	2013
Fire Marshal	Rodney Johnston	1977
Firefighter	John Showalter	1972
Firefighter	Doug Bodde	1987
Firefighter	Wayne Hoffman	1992
Firefighter	Ron Knox	1996
Firefighter	Mike Frisky	2006
Firefighter	Mike Dunegan	2007
Firefighter	Bryan Smith	2009
Engineer	Bill McCale	2010
Firefighter	Kris Horton	2012
Firefighter	Robert MacLean, Jr.	2014
Firefighter	Dominic Statford	2015
Firefighter	Courtney Kovalan	2017
Firefighter	Tyler Keith	2015
Firefighter	Zack Adams	2018
Firefighter	Andrew Monet	2019
Firefighter	Jeremy Adams	2021
Firefighter	Rick Thrasher	2019
Firefighter	Ben Roberts	2021
Firefighter	Luke Smith	2021
Firefighter	Chris Lassen	2022
Firefighter	Shawn Goldsmith	2022
Firefighter	Taylor Perchinsky	2022
Firefighter	John Miles	2022

Personnel Who Left in 2022

Assistant Chief	Dave Coen
Lieutenant	Jerry McKinney
Lieutenant	Chris Stempowski, Jr.
Firefighter	John Showalter
Engineer	Bill McCale

E.M.T. - Basic	8
E.M.T. - First Responder	3

Fire Marshal John Showalter (retired)

By Fire Chief Bill Brown

For perspective, two-thirds of the current fire department had not been born yet when John became a member of the Vermilion Fire Department. Fifty years of service to the community is what Fire Marshal John Showalter gave to the citizens of Vermilion. However, let's not give John ALL the credit...his family is just as deserving.

John, along with his wife Gloria, raised a son John during their fifty-four years of marriage. Through it all, John has done his best to keep active in life. A veteran of the United States Air Force, John returned home in November 1970 to help his family before marrying. Joining the fire department in January of 1972, John saw a lot of change in his fifty years as a Vermilion firefighter. During his service, John fought fires without an SCBA; rode on the back tailboard to calls; and saw the transition from manual transmissions to our current, overly computerized fire trucks.

During the latter years of his career, Showalter served as the department's Fire Marshal, helping to ensure safety throughout the entire city. But his "real job" was a thirty-five year career as a letter carrier for the United States Postal Service. His calm and pleasant demeanor was certainly appreciated by his daily customers.

Now a full-fledged grandfather, John enjoys spending time with his son and daughter-in-law and their five children: Kayla, Christian, Julia, Jacob and Noah, in Michigan. While he enjoys golfing and vacationing, he doesn't get to do as much as he would like.

So when you see John at a festival, school event or anywhere in town, be sure to thank him AND his family for his service to the City of Vermilion.

Assistant Chief Dave Coen (retired)

By Deputy Chief Chris Stempowski

Assistant Chief David L. Coen retired from the Vermilion Fire Department on June 12, 2022, after serving the citizens of the City of Vermilion and surrounding communities for 46 ½ years. Dave was hired onto the force on January 2, 1976, as a firefighter and was assigned to station #2 on Overlook Rd.

During his time with the Vermilion Fire Department, Dave served in almost every position on the force. Like every other person becoming a member of the fire department, he started as a firefighter and was eager to learn from his fellow firefighters. He loved to ride in the jump seat, where firefighters donned their SCBA's (self-contained breathing apparatus), or on the tailboard of the trucks before that practice was abolished. Dave watched, listened, and learned from those around him to become the best firefighter he could, eventually learning how to drive the fire trucks and operate their pumps, becoming a very proficient engineer.

Throughout his career, he continued to educate himself in every aspect of being a firefighter for the Vermilion Fire Department. As firefighters of our department perform many more tasks than just fighting fires, he received a lot of hands-on training as well as attending as many local and regional fire schools and courses as he could for someone who also worked full-time at Ford Motor Company, Lorain Assembly Plant.

He furthered his education by attending school to become an EMT (Emergency Medical Technician). After becoming an EMT, like many other Vermilion firefighters, he used those skills to assist members of our community while responding to incidents with the fire department as well as working for the Vermilion Police Department, when the city ambulance service was provided by them.

Proving to be a great leader, Dave rose through the ranks at the fire department, served in many positions, and eventually held the titles of Firefighter, Lieutenant, Captain, and Assistant Chief. He also served in the capacity of Fire Chief on multiple occasions during times when the Chief was recovering from illnesses or on vacations. He was continually active in assisting the Fire Chief with day-to-day operations of the department, attending county fire chief meetings, completing monthly department payroll, and so much more to help the department run smoothly.

Dave was always willing to share his knowledge, skills and lessons learned from the countless incidents he responded to throughout his time with the fire department. He was never one to sit idly by while other members responded to calls if the station siren sounded, or the pager beeped. If he were not at his full-time job, out of town or extremely ill, he responded to every call he could, day or night.

He always made himself available for anything that needed to be done at the stations including mowing and trimming the lawn, snow removal or placing salt down for icy conditions, standing by for any service technicians for the stations, apparatus, or equipment. He was always willing to standby on station during inclement weather or any other reason that may negatively impact firefighter responses to the stations when requested.

Dave was deeply involved in many improvements to the department throughout the years including station #2 renovations, planning and design of the new station #1 on Douglas Street, assisting with designing of several new trucks including Engines 81, 85, 94 and brush trucks 95 and 97, and always providing input for items such as turn-out gear, equipment, and rescue tools.

Dave was profoundly serious about firefighter safety, and he also took the safety of our citizens, business owners and visitors to the city equally seriously. He participated in fire safety visits to schools, daycare centers, churches, businesses, and hosted many fire safety educational visits at the stations throughout the year.

One of his greatest pleasures was taking over and coordinating the annual "Santa on the Firetruck" event. Bringing smiles and joy to the children (and adults) in our community was something he looked forward to every single year. Planning for the next year began as soon as the trucks were put away from the current years' event. It did not matter if the weather forecast was in the upper fifties with rain, or twenty below zero with heavy snowfall, Dave and his helpers would walk door to door collecting donations, packing candy, decorate the trucks, get the music playing, then get Santa and his elves ready for the big day! Stops were made at nursing homes and assisted living facilities, then began the days' long trek up and down streets delivering joy everywhere he traveled. A lot of time, energy and commitment was required for this event, but Dave never stopped until everyone was back at the station safely and the equipment was put back in service for any calls that may come in.

Dave proudly and selflessly served at every position he held throughout his nearly fifty years of service with the Vermilion Fire Department. He liked to show that pride by attending every single event held in our city, encouraged all personnel to embrace in the participation and went that extra mile to ensure our apparatus was as clean, shiny, and presentable as possible to show the love he had for this city, our citizens, and the fire department.

Thank you, Assistant Chief Dave Coen, for your many years of dedicated service to our wonderful city!

Lieutenant Jerry McKinney (retired)

By Lieutenant Derek Kuba

It's 1996 and at Super Bowl 30, the Dallas Cowboys become the first NFL franchise to win three Super Bowls in a span of 4 seasons.

With the help of Michael Jordan, the Chicago Bulls win their 4th NBA Championship.

Tiger Woods makes his professional debut at the Greater Milwaukee Open.

In November 1996, Democratic incumbent Bill Clinton defeats Republican challenger Bob Dole to win his second term. Also, that year, the Vermilion Fire Department welcomes to its ranks at Firefighter Jerry McKinney.

We have to say THANK YOU where it is due, and we would like to thank Lieutenant McKinney's wife Carolyn, daughters Kayla and Brianna and son Corey. Being in the fire service is a commitment and requires a great deal of time spent away from your family at home. Lt. McKinney was extremely dedicated to this department. Whether it was responding to emergencies, departmental training, social club events, hose testing, or being our department's biggest advocate, Jerry put in the time needed.

McKinney has been an active participant in countless "Water Ball" championships at NOVFA'S annual fire convention. All though retiring from the city he continues his work in the NOVFA where he sits as 1st Vice President. Advocating for firefighters and their families all over Northwest Ohio. Lastly, we want to thank you, Lt. McKinney, for twenty-six years of dedicated service to this department and the citizens of the City of Vermilion.

Section 2: Department Finances

Current Financial Status

As the department enters 2023, we do so in strong financial fashion. Years of responsible spending by past fire administration, combined with the financial expertise of the City's Finance Director, Amy Hendricks, has kept the fire department financially stable.

Moving forward, the budgetary items for the fire department have remained essentially the same, with two exceptions. Starting in June 2022, the salary for the department's first full-time fire chief needed to be accounted for, equaling \$72,000.

In 2023's budget, depending upon grant sources, we may be forced to purchase 3-5 new SCBA's to replace current obsolete units which lack safety items needed to perform efficiently. Keeping safety in mind, 2023 will see the department implementing an annual turnout gear purchase/rotation.

The following shows budgeted and spent amounts for the fire department in 2022, in addition to the budgeted amounts for Fiscal Year 2023.

	<i>2022 Budgeted</i>	<i>2022 Spent</i>	<i>2023 Budgeted</i>
206 Fire Operating Fund			
Personal Services: salaries, insurance, worker's compensation, etc.	\$215,072.74	\$268,163.74	\$309,657.99
Professional Development: continuing education classes, professional memberships, etc.	\$8,250.00	\$8,250.00	\$10,950.00
Contract Services: utilities, vehicle maintenance, radio maintenance, facility maintenance, etc.	\$290,096.79	\$297,496.79	\$231,900.03
Materials & Supplies: fuel, building supplies, protective clothing, etc.	\$46,630.69	\$40,230.69	\$32,499.61
Capital Outlay: equipment & fixtures, improvements, etc.	\$9,800.00	\$9,800.00	\$5,000.00
207 Fire Apparatus Fund			
Contract Services: engineering, auditor fees, etc.	\$71,218.00	\$71,218.00	\$20,027.50
Materials & Supplies: minor equipment, etc.	\$10,000.00	\$10,000.00	\$10,000.00
Capital Outlay: land, vehicles, buildings, etc.	\$54,391.43	\$54,391.43	\$35,742.39
Debt Service: principal payment, etc.	\$340,000.00	\$340,000.00	\$245,000.00

TOTALS: \$1,045,459.65 \$1,099,550.65 \$900,777.52

Planning for Capital Expenditures

The fire service, for lack of a better analogy, is a business. Therefore, the cost of business is constantly rising to address the changes we see, nationwide. Our most costly asset is our fire trucks. These specialized vehicles come with annual requirements for service, testing and maintenance. The National Fire Protection Association (NFPA) mandates the life cycle of the tires we run.

Unlike a fully staffed, career fire department, the budget of a smaller, combination or completely volunteer department is drastically different. Where a large city would be replacing fire apparatus every ten years, the smaller departments are able to double that service time. The biggest financial difference comes with payroll. Most cities with a full-time department, it is a safe bet that 90% of their budget is for salaries and benefits. Whereas smaller departments, their salary line makes up 30%-40% of the total budget.

The next few pages detail the Vermilion Fire Department's three biggest capital concerns.

Fire Apparatus Fleet Status

One of the biggest capital assets of the city and its individual departments is a fleet of reliable vehicles. Whether it's a backhoe, pickup truck or fire engine, our city's employees need this equipment to successfully complete their mission. Firefighters depend heavily on the performance and capabilities of their vehicle when operating to protect life, property and the environment. To maximize these capabilities and minimize their risk of injury, it is imperative that the apparatus be equipped with the latest safety features and current operating capabilities.

Often, fire apparatus are specifically designed for the area it will serve. An example would be designing a fire engine that has a short wheelbase with an excellent turning radius. Imagine a rear, dual axle engine, navigating the VOL neighborhood. This is just one of the many concerns when designing and purchasing a new fire engine.

Thankfully, the City of Vermilion Fire Department has maintained a fiscally sound fund for apparatus replacement through the years. This fund is used to periodically replace fire apparatus. Each type of fire apparatus is assigned a general life cycle based on the specific use of the vehicle and will vary greatly according to the department's annual incident/run volume. So, when looking at the usefulness of a piece of equipment, there are at least three different life cycles to consider: service life, technological life and economic life as well as some immeasurable costs.

The service life of a vehicle is when a piece of equipment can perform its needed duty. When considering service life in a city such as Elyria, engines and rescue trucks can normally get ten years of service. However, an engine in the City of Vermilion can easily remain in service for twenty-five years. Service life is dependent on several factors and variables. The most important are mileage, number of responses, overall wear, pumping capacity and operating capability.

The technological life of a vehicle is its capability to serve the role it was initially designed for. Vehicles from fifteen years ago most likely did not have a seat

belt warning system. Today, it's a standard that the fire service has demanded. While older vehicles may still be capable of performing the tasks they were designed for, they cannot match the performance requirements of new vehicles. Speed, acceleration and breaking ability with new

technologies such as antilock braking systems, traction control and rollover stability are some of the new technological advances of newer apparatus.

The economic life of a vehicle is its total expense for effective use over a given period. These costs include depreciation, operating costs, fuel, oil, maintenance, repairs, downtime replacement and operator training. All these factors come into play when determining the vehicle's economic life. The cost to maintain a given vehicle increases with time, until it is more expensive to operate than maintain.

Given the magnitude of fire apparatus costs; it is vitally important to have a fluid, definitive plan on apparatus replacements. Just like most industries today, the manufactures of fire apparatus are hit with the same supply issues. Currently, most custom-made trucks will take anywhere between 12-24 months to build. The following is a basic picture of the Vermilion Fire Department's vehicle fleet with their use and expected replacement schedule.

Station 1 Apparatus

Year Purchased			Original Cost	Estimated Replacement Cost	Potential Replacement Year	Average Annual Mileage
Utility-89	2000	Chevrolet Blazer	\$20,000	\$20,000	n/a	867
Tower-90	1999	Sutphen, 100' Tower	\$600,000	\$1,200,000	2025	50
Brush-92	1985	Jeep, CJ5	\$7,500	n/a	n/a	10
Engine-94	2010	Pierce Impel	\$526,000	\$750,000	2035	803
Brush-95	2008	Ford, F-250	\$24,708	\$55,000	2033	721
Engine-96	2004	Pierce Saber	\$316,890	\$650,000	2029	366
Rescue-98	2021	Pierce Enforcer	\$616,619	\$815,000	2046	300
Command-99	2008	Ford Expedition	\$65,000	\$85,000	2028	1,656

Station 2 Apparatus

Year Purchased			Original Cost	Estimated Replacement Cost	Potential Replacement Year	Average Annual Mileage
Engine-81	2006	Pierce Saber	\$395,768	\$670,000	2031	1,237
Engine-84	2001	Pierce Saber	\$252,360	620,000	n/a	444
Tanker-85	2008	Pierce Impel	\$479,919	\$750,000	2038	702
Brush-86	1977	Jeep, CJ5	\$5,696	n/a	n/a	10
Brush-97	2008	Ford, F-250	\$24,708	\$55,000	2033	284

In 2023, a committee will be formed to analyze the fleet and make recommendations on a long-term plan for apparatus replacements. Included in these recommendations will either be one of three options. First, will the truck be replaced. Second, instead of replacing the vehicle, would it be feasible to simply have the truck refurbished; thus saving a great deal of money. The final option when looking at the individual trucks, is whether we still need that truck to maintain our readiness.

Self-Contained Breathing Apparatus (SCBA)

Two of the greatest needs for the department were to replace an aging radio system and replace thirty-one, very dated SCBA's. Fortunately, in 2021, the department was awarded a grant for over \$600,000 to replace our radio system, in conjunction with Lifecare Ambulance. This shared grant will give VFD the ability to communicate with ALL our mutual aid partners for about \$30,000, saving our citizens a great deal of money.

However, the need for new air packs continues to be vitally important. In 2022, the department applied for an Assistance to Firefighters Grant (AFG) for just over \$260,000 to replace the dated air packs. Unfortunately, we were not awarded the grant and will again try in 2023 for this much needed, "free money".

This project directly involves the life safety of our firefighters and the obsolete SCBA's that are currently worn into dangerous atmospheres. The NFPA 1981 standard was established to enhance the life safety of firefighters working in these atmospheres and to ensure their SCBA units would function in hazardous conditions. While we value our firefighter's lives, currently we are unable to fulfill the statutes of NFPA 1981 due to our current finances without assistance.

In 2018, we were forced into purchasing five new SCBA units, due to being obsolete and parts no longer available for repair. Without the funding from AFG, it will be impossible to make such a purchase in our current state. Since 2022, we have seen a 30% increase in the price of these units.

Last year, the grant was written for \$260,000, however for 2023, we will be asking for \$338,675 to fulfill the safety needs of the fire department.

Firefighter Turnout Gear

The very equipment that firefighters wear to every call is subject to strict guidelines on its use and care. Starting at the top with the firefighter's helmet, each piece of gear is mandated to be cared for and properly maintained. Additionally, every piece of the firefighter's ensemble has a service life of ten years. Some pieces of the equipment, such as the helmet or boots, can still be serviceable past that ten year period. However, do we take the chance that something is "still good"?

Just as we need to plan for apparatus purchases, having a systematic plan for replacing the firefighter's turnout gear is vital. With advancements in fabrics and other upgrades, coupled with everyone's favorite term these days of "supply chain issues", a complete set of turnout gear will cost the department approximately \$2,800 per firefighter. This year, we will begin replacing gear for up to eight firefighters. This will begin an annual cycle, which will also ensure that each member has a backup set to use if their primary outfit is dirty or out of service.

Section 3: Training

Department Training

To some, training may not seem like an important component of fire rescue and safety. However, the American fire service attributes improvements in training for fire personnel with a decline in the number of fire related deaths over the last decade. In addition to the fact that many lives can be saved because of training there are a wide range of reasons to provide fire training for all fire personnel:

- Training enables firefighters to learn new skills and techniques to make their jobs safer. While firefighters often risk their lives to save others, with the right training some of the risk to fire personnel can be managed.
- Training enables firefighters to respond more efficiently, reducing the property damage caused by fires. This can be essential in situations where fire damage to the community could be substantial.
- Training provides firefighters with needed experience.
- Training keeps volunteer firefighters active and engaged. Because volunteers typically have full-time careers outside of the firehouse they often crave training to help them remain engaged and active in the field.

The department trains each Monday of the month, except for holidays. In addition to our Monday evening training sessions, an alternate time each Monday morning enables those to attend, who may not be available in the evening.

Tasked with managing the department's training program, Lieutenant Derek Kuba, in conjunction with the Command Staff, prepare a schedule utilizing our personnel's specialties, as well as bringing in outside instructors to present different perspectives.

Additionally, the department pays for an online service that allows each member to continue their education, via any computer. This service allows not only personnel to obtain their firefighting continuing education, but also allows our instructors, inspectors, and medical personnel to satisfy those certifications, as well.

Hours Trained

FF Zack Adams	42.75
FF Doug Bodde	75
Chief Bill Brown	52.50
AC Dave Coen	43.75
Lt. Brian Dunegan	96.75
FF Mike Dunegan	46
FF Mike Frisky	34.25

FF Bob MacLean	4
FF Bill McCale	47.25
Lt. Jerry McKinney	49.50
FF John Miles	4
FF Andrew Monet	8.50
Lt. Doug O'Donnell	49.75
FF Taylor Perchinsky	4
FF Ben Roberts	30.75
FF John Showalter	4
FF Bryan Smith	63.50
FF Luke Smith	24
FF Dom Statford	77
Lt. CJ Stempowski	3
Dep. Chief Chris Stempowski	0
FF Rick Thrasher	57.5

Section 4: Incident Statistics

Incident Response

The Vermilion Fire Department (VFD) is a combination department originally founded as a 100% volunteer department. The department has evolved from a paid per call, to a combination department, employing its first career fire chief in 2022 and approximately twenty-seven paid-per-call personnel.

The VFD provides fire suppression, prevention, education, emergency medical first response and a variety of special rescue operations. The department, governed by a "Mayor-Council" form of government, provides service to the residents of the City of Vermilion and is contractually used to cover a portion of Brownhelm Township. The department is also signed into mutual aid agreements to accept and provide services to our neighboring communities when available.

The City of Vermilion, located partially in Erie County, and partially in Lorain County is scenically located on the southern shores of Lake Erie. From quaint shops to fine dining, the arts, entertainment and unmatched festivities, Vermilion truly has it all. The city is home to approximately 10,594 residents, occupying approximately 10.8 square miles. Additionally, Brownhelm Township is home to approximately 7,618 residents, occupying just over 40 square miles. Brownhelm Township is divided into three areas; and receives its emergency services from the City of Vermilion, Florence Township, and the Village of South Amherst.

The VFD utilizes the services of its members responding from two stations. The stations, and city, are separated by a heavily traveled east/west corridor of the CSX railroad, as well as the Vermilion River, a tributary to Lake Erie. The district provides fire and rescue services and provides first response services to Lifecare Ambulance.

Fire Stations:

Station 1; located at 1041 Douglas Street

- Dedicated on May 15, 2021
- Main administrative offices
- Dispatching capabilities
- (4) drive thru bays; housing (8) apparatus
 - Engine 94; 2010 Pierce; 1,000 gallon tank; 1,500 gpm pump
 - Engine 96; 2004 Pierce; 1,000 gallon tank; 1,500 gpm pump
 - Tower 90; 1999 Sutphen; 300 gallon tank; 1,500 gpm pump
 - Rescue 98; 2021 Pierce Heavy Rescue
 - Brush 95; 2007 Ford F-250; 200 gallon tank
 - Brush 92; 1985 Jeep CJ-7; 100 gallon tank
 - Utility 89; 2000 Chevy Blazer
 - Command 99; 2018 Ford Expedition
 - Boat; 13' Inflatable AB (Profile); 25 hp Yamaha
 - Boat; 14' Aluminum Smokecraft; 25 hp Evinrude

Station 2; located at 385 Overlook Road

- Office of the Deputy Chief
- Dispatching capabilities
- (4) bays; housing (5) apparatus
 - Engine 81; 2006 Pierce; 1,000 gallon tank; 1,500 gpm pump
 - Engine 84; 2001 Pierce; 1,000 gallon tank; 1,500 gpm pump

- Tanker 85; 2008 Pierce; 3,000 gallon tank; 1,500 gpm pump
- Brush 97; 2007 Ford F-250; 200 gallon tank
